WELCOME TO THE WORLD OF SPINELLI PARQUET

The story of **Spinelli Parquet** is a testament to passion, dedication, and perseverance in achieving excellence in the **wood processing industry**. From its modest origins as a pallet manufacturer and woodworking specialist, evolving into an importer of premium woods, and solidifying its position as a leading force in the sector, Spinelli Parquet presents **wood flooring that turn spaces into havens of beauty and comfort, enhancing them with authenticity and style.**

The story of Spinelli Parquet **traces back to 1960** when founder Dante Spinelli established the company as a premium wood import business in the picturesque location of Castignano, in the province of Ascoli Piceno. With his passion for wood and entrepreneurial vision, **Dante Spinelli laid the foundation for a successful journey in the realm of wood craftsmanship.**

The location of Ripaberarda di Castignano, nestled amidst the rolling hills and surrounded by nature, has profoundly influenced the company's philosophy and inspiration. The beauty and variety of woods sourced from around the world seamlessly blend with the natural atmosphere and environment of the region. The company has made quality and meticulous attention to detail its strengths, crafting exquisite wood flooring that transforms spaces into refined and inviting environments.

Initially, Spinelli Parquet operated as a **sawmill**, supplying timber to flooring producers, window and door manufacturers, and furniture makers. However, **the aspiration for growth and improvement spurred the company to expand and specialize** over the years. By leveraging the opportunities presented by the market and the abundance of natural resources, F.lli Spinelli Srl broadened its expertise, **evolving into a company capable of managing the entire production cycle for the processing of fine wood flooring** within its own facility.

Commitment to quality and attention to detail have always characterized the company.

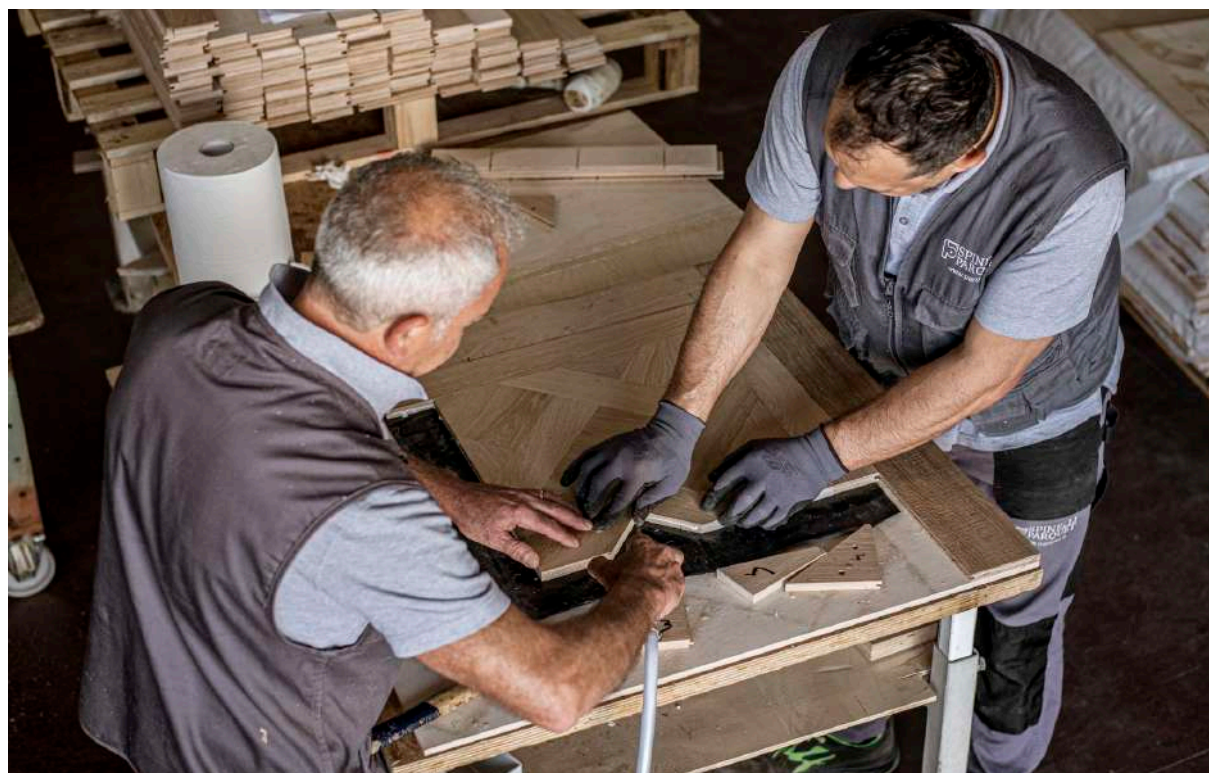

The constant search for the finest wood species has led the company to collaborate with suppliers from all over the world, selecting materials from European forests, distant South America lands, and regions in Southeast Asia. This extensive selection of high-quality raw materials enables the company to offer a range of premium wood flooring, appreciated both in the domestic and international markets.

Today, Spinelli Parquet remains a family-run business, driven by the commitment and dedication of every member of the Spinelli family. The company has successfully adjusted to new trends and customer requirements, providing personalized and innovative solutions in the realms of fine wood flooring.

At Spinelli's showroom and at their retailers' locations, customers can admire the wide range of wooden flooring options on display. In a pleasant and well-maintained setting, the company's experts provide personalized consultation, assisting customers in selecting the product that best suits their needs.

SELECTIONS

Spinelli Parquet presents **four different parquet selections**, each with its own unique features, to meet the preferences and requirements of every customer.

Each of these selections is designed to ensure the highest quality and long-lasting durability.

● ELEGANCE

A clean and uniform look, an elegance that embraces every space, every corner, every reflection, like a dream.

In this selection, the finest wood species are meticulously crafted in every detail, giving life to an exclusive experience, thanks to a parquet that never ceases to amaze.

▲ STANDARD

Personality, balance, awareness: the Standard selection is defined by a **bold appearance, thanks to the presence of knots, grain patterns, and subtle imperfections**. This selection can enhance the true essence of any space, celebrating its innermost and true nature.

■ AUTHENTIC

Emotions leave a trace: **knots, grooves, and irregularities of the soul become the distinctive marks of an authentic character.**

These are the characteristics of a selection with a strong and sincere personality, speaking to the heart, approaching every space with fresh energy and uncompromising charm.

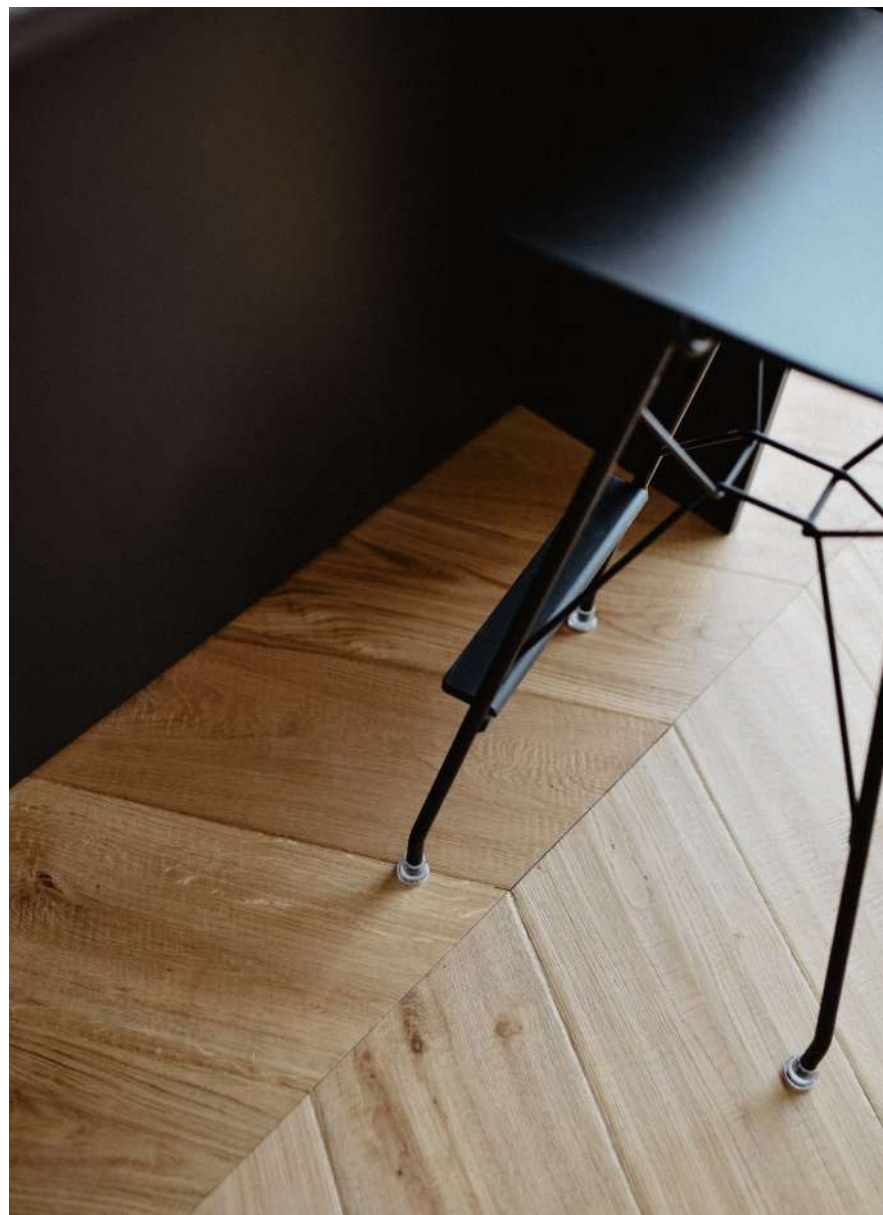

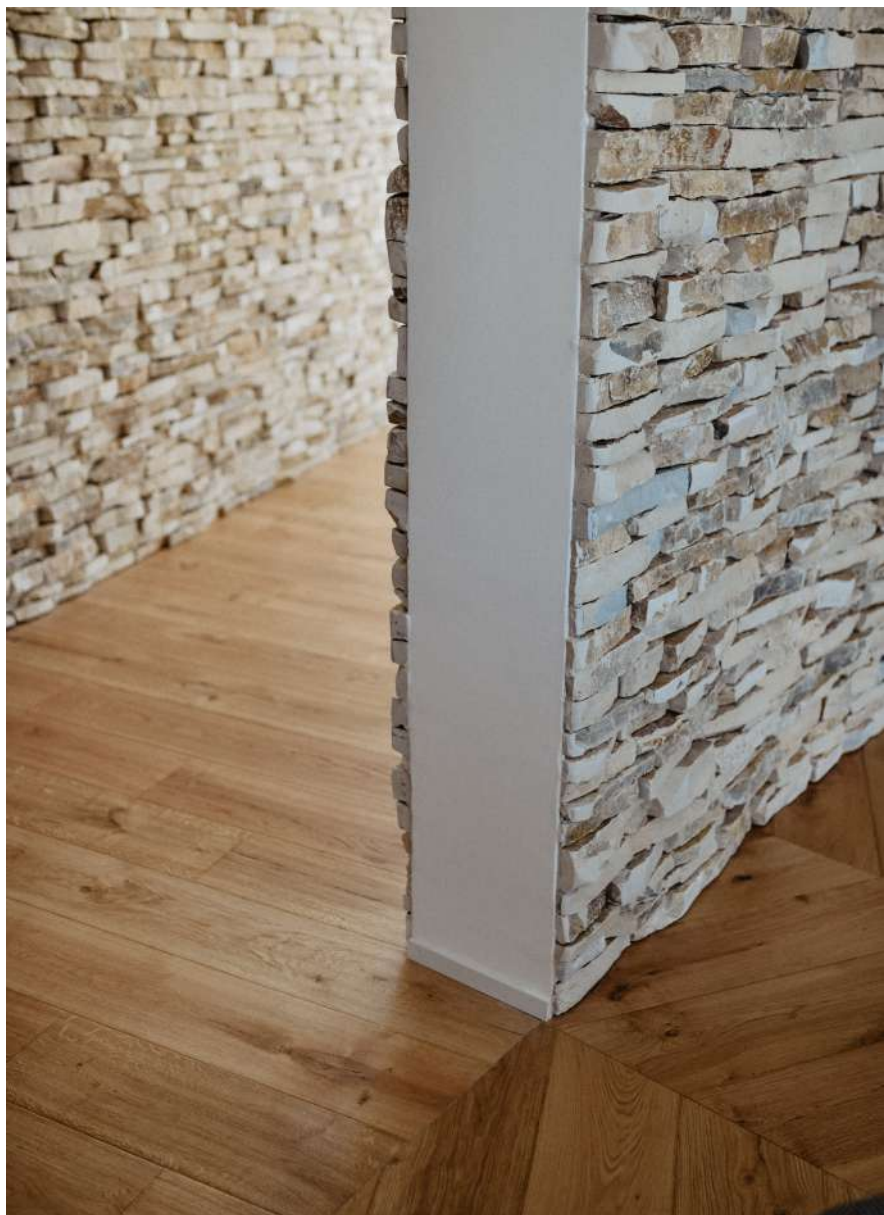

◆ UNICA

A range of flooring where Spinelli Parquet has chosen **not to select the raw material**, thus delivering **a floor as pristine as nature created it**. It represents the blending of the various selections detailed earlier.

THE COLLECTIONS

Spinelli Parquet presents a wide range of collections, each with its own characteristics and styles.

Each collection is designed to enhance the beauty of wood, creating unique and elegant environments. From light tones to dark tones, and featuring the finest and most durable wood essences, the product range can satisfy any aesthetic and functional preference.

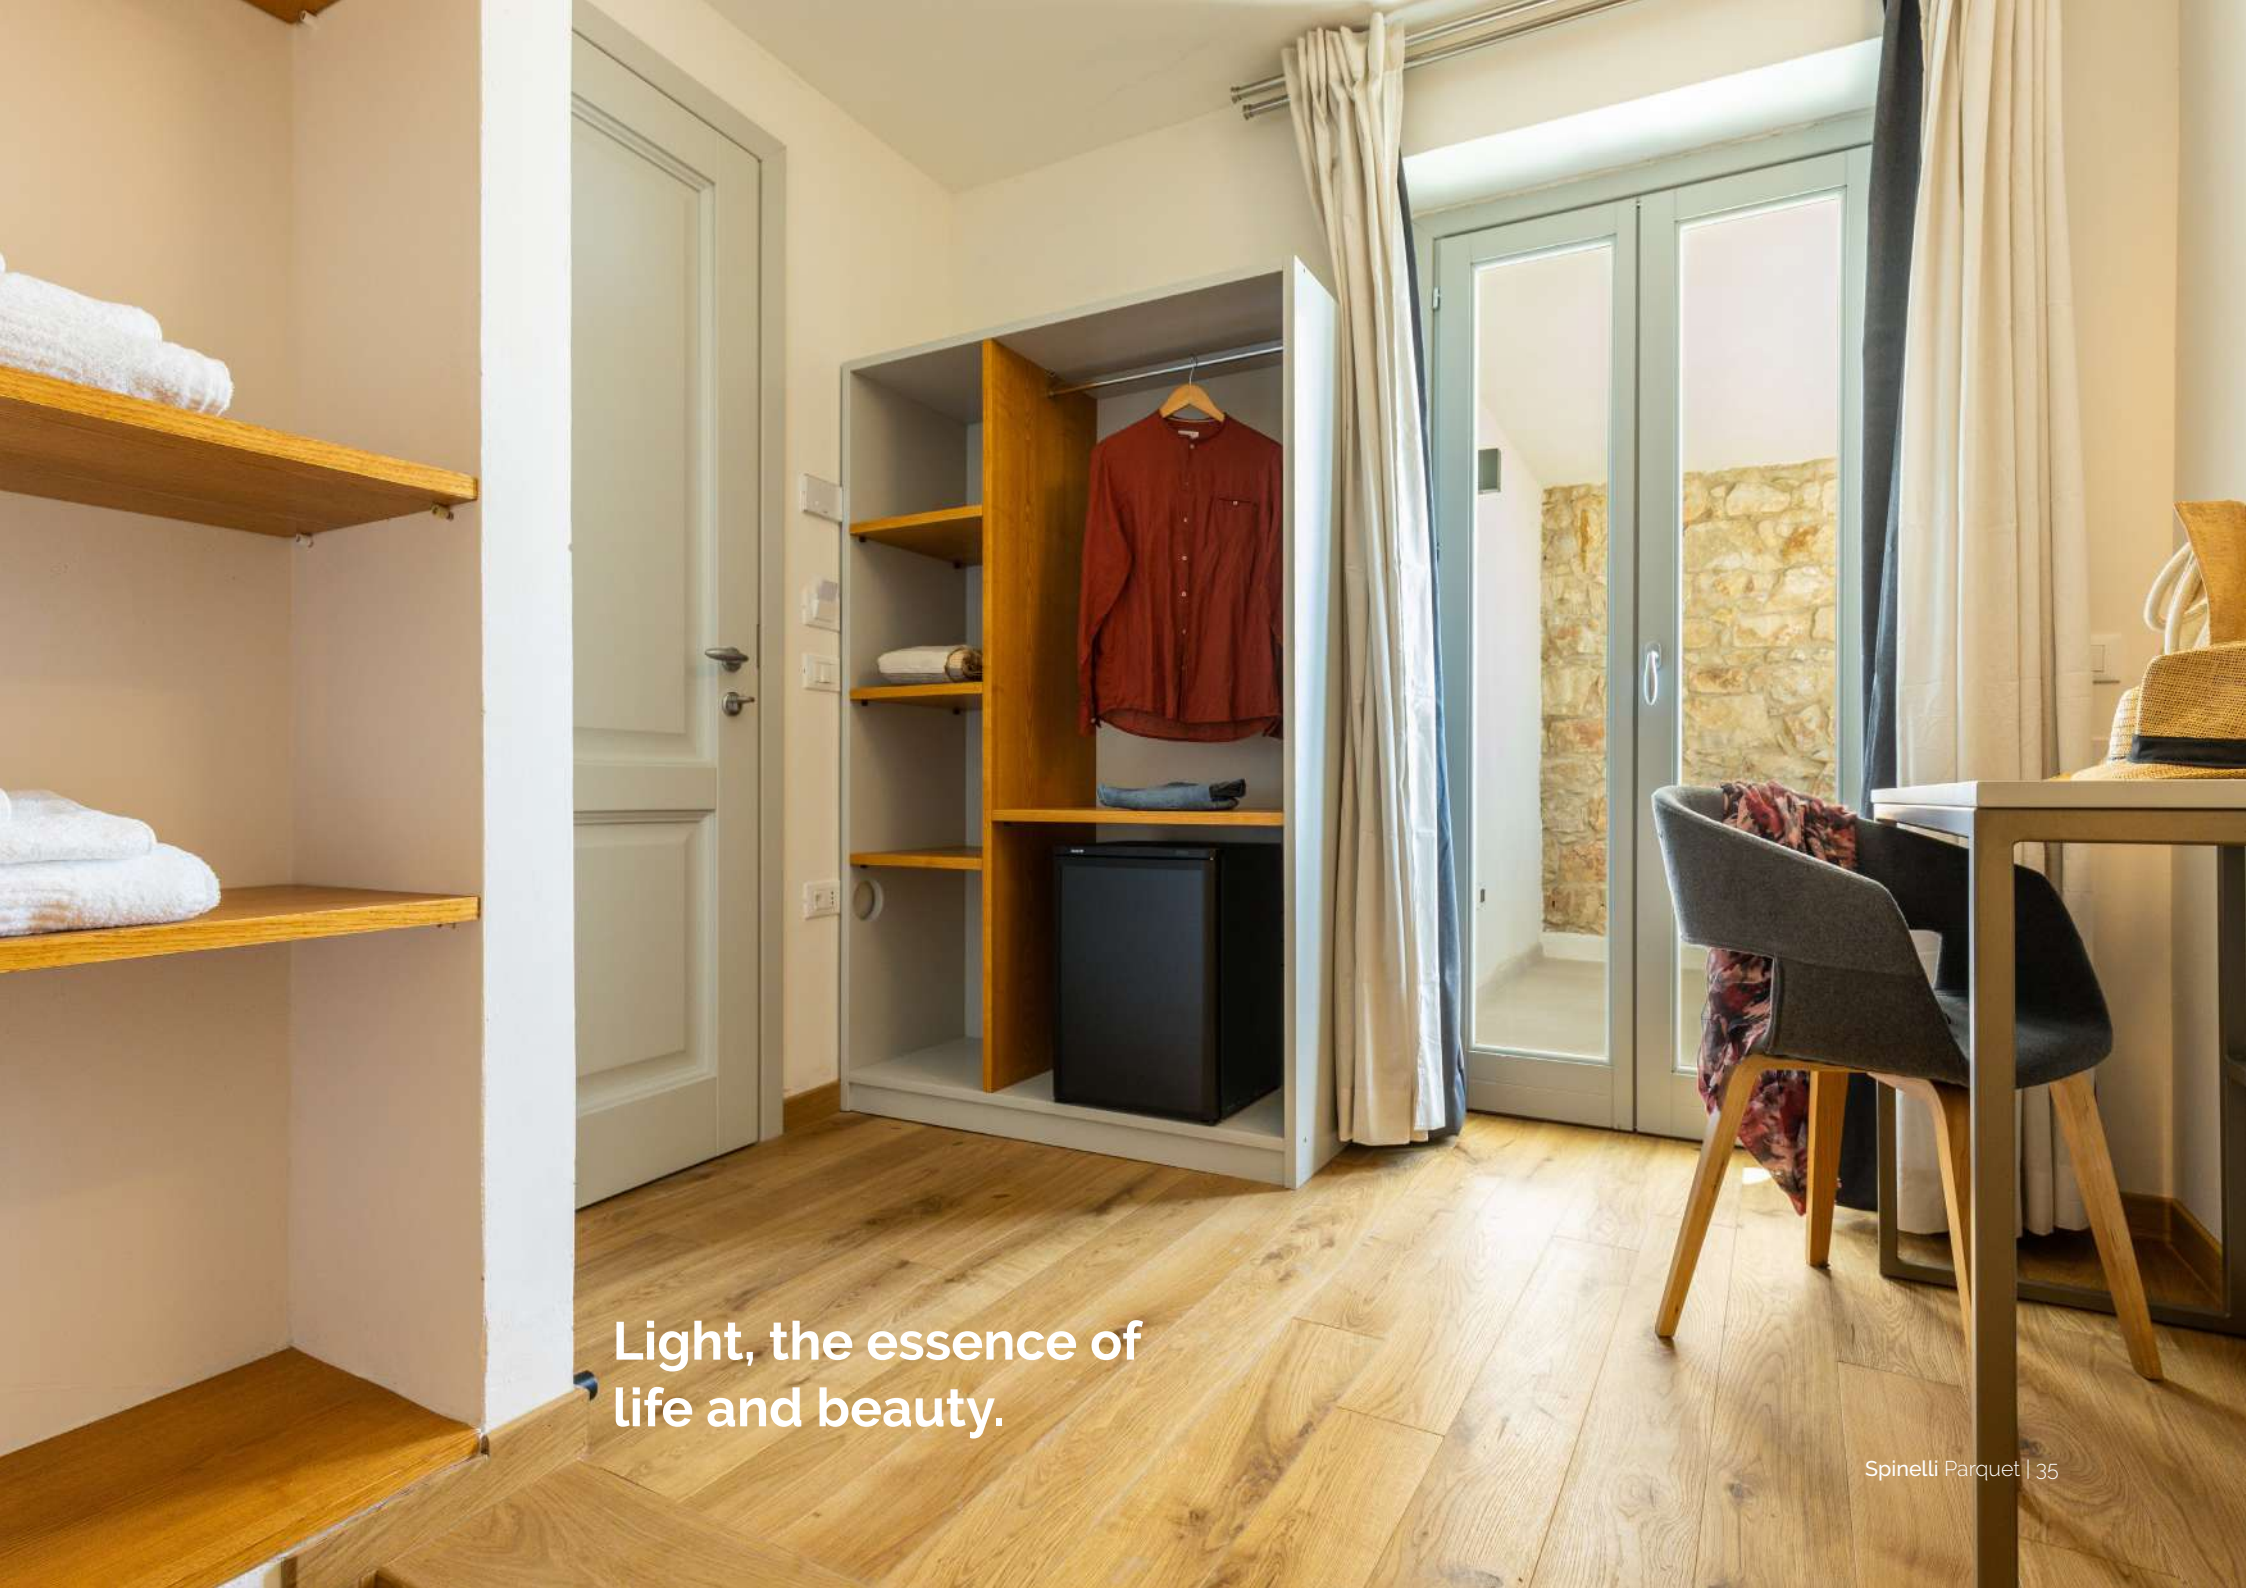

LUCE COLLECTION

Distinguished by its **gently brushed surface**, giving the wood a silky touch and a captivating visual appearance.

It features cosmetic fillings that create a **more delicate texture**.

Available in the ***Elegance, Standard, and Authentic selections***, and in all the colour variations from our range. This makes it suitable for a variety of furnishing solutions, whether in classic or contemporary settings.

Also available in 90°, 60°, 45° Herringbone and mosaic patterns.

Light, the essence of
life and beauty.

ESSERE COLLECTION

The **craftmanship** behind the ESSERE collection **creates a surface with grain, knots, and irregularities**, for a tactile and authentic effect that enhances the beauty of wood and **creates a warm and welcoming atmosphere**, perfect for traditional and rustic settings.

The ESSERE collection is exclusively available in the ***Authentic selection***, making it a perfect match for industrial chic and country-style décor, while also fitting into ultra-modern environments. It is offered in all the colour variations in the range, for complete customization.

Be yourself, express your nature.

ENERGIA COLLECTION

Its **hand-planed surface** is a distinctive feature. The hand-distressing imparts a timeless, lived-in look.

These processes undoubtedly increase **resistance to impacts**, making it extremely difficult to damage.

It is possible to choose cosmetic or contrasting dark fillings.

ENERGIA is exclusively available in the ***Unica selection***, meaning the planks are not selected to represent the true essence of wood.

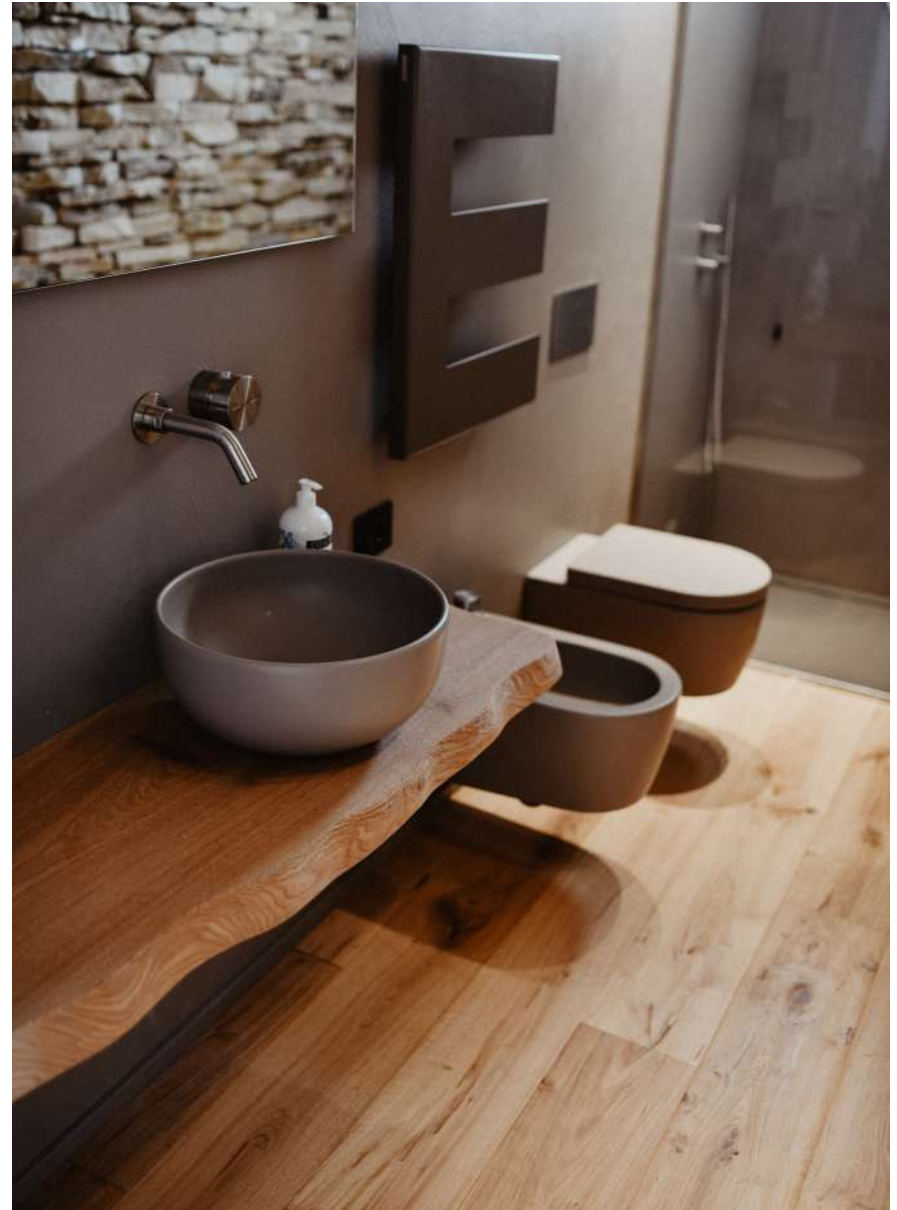

Also available in Herringbone 90°, 60°, 45° and mosaic patterns.

Craftsmanship highlights the **natural wood grain**, creating a **warm and inviting atmosphere**.

With a wide range of shades and finishes, the ENERGIA collection offers many furnishing solutions. Each parquet floor is unique and distinctive, boasting different grains and shades that enhance your home.

The energy of actions,
imprinted in wood.

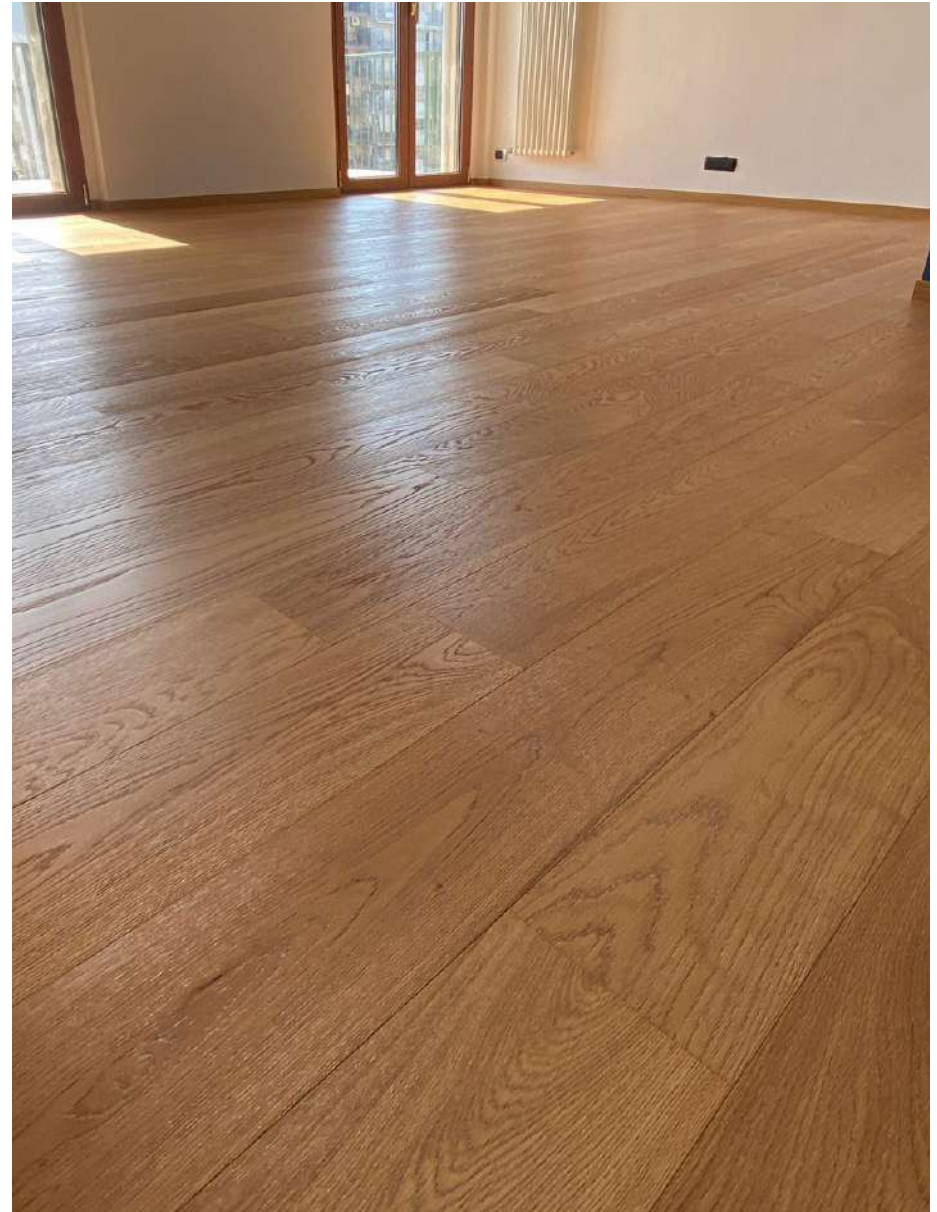

BREZZA COLLECTION

Simple and compact sized planks will complement any environment thanks to their versatility. **A smart and effortless way to transform the look of your living space in a few simple steps.**

Available in the Elegance, Standard, and Authentic selections in all colour variations.

The gentle breeze infuses a sense of comfort and tranquility.

ANIMA COLLECTION

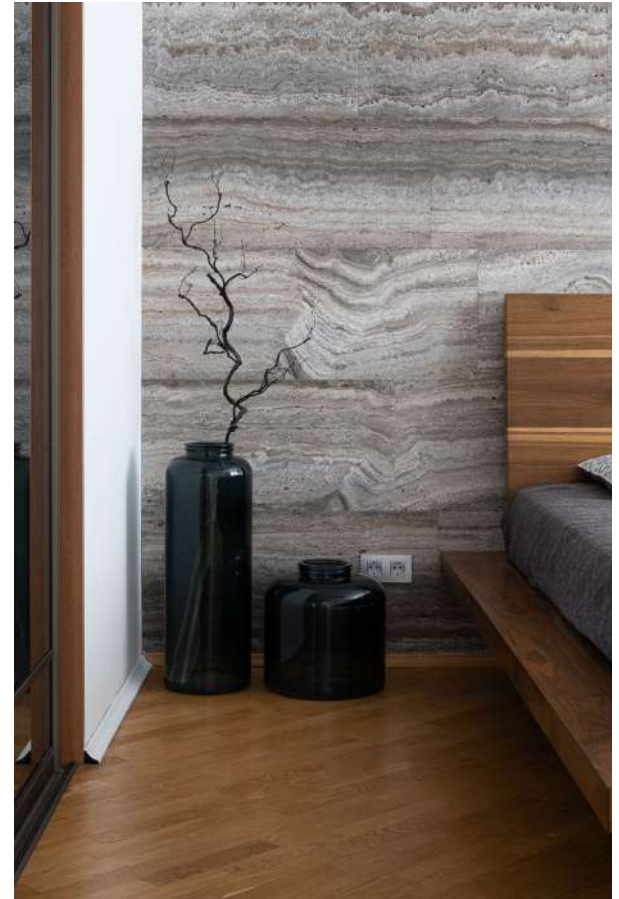

The ANIMA collection embodies the true essence of **solid wood floors**, a product that has contributed to elevating Spinelli to its leadership position in the industry over the years. To this day, Spinelli remains one of the few companies that continue to craft solid wood flooring.

With undeniable tradition and prestige, the Anima Collection represents a real added value.

Upon request, it is available also in 90°, 60°, 45° Herringbone and mosaic patterns.

**Transmitting the purest
soul of wood.**

ESO COLLECTION

The Eso parquet collection is dedicated to outdoor wood decking, creating elegant and welcoming outdoor spaces.

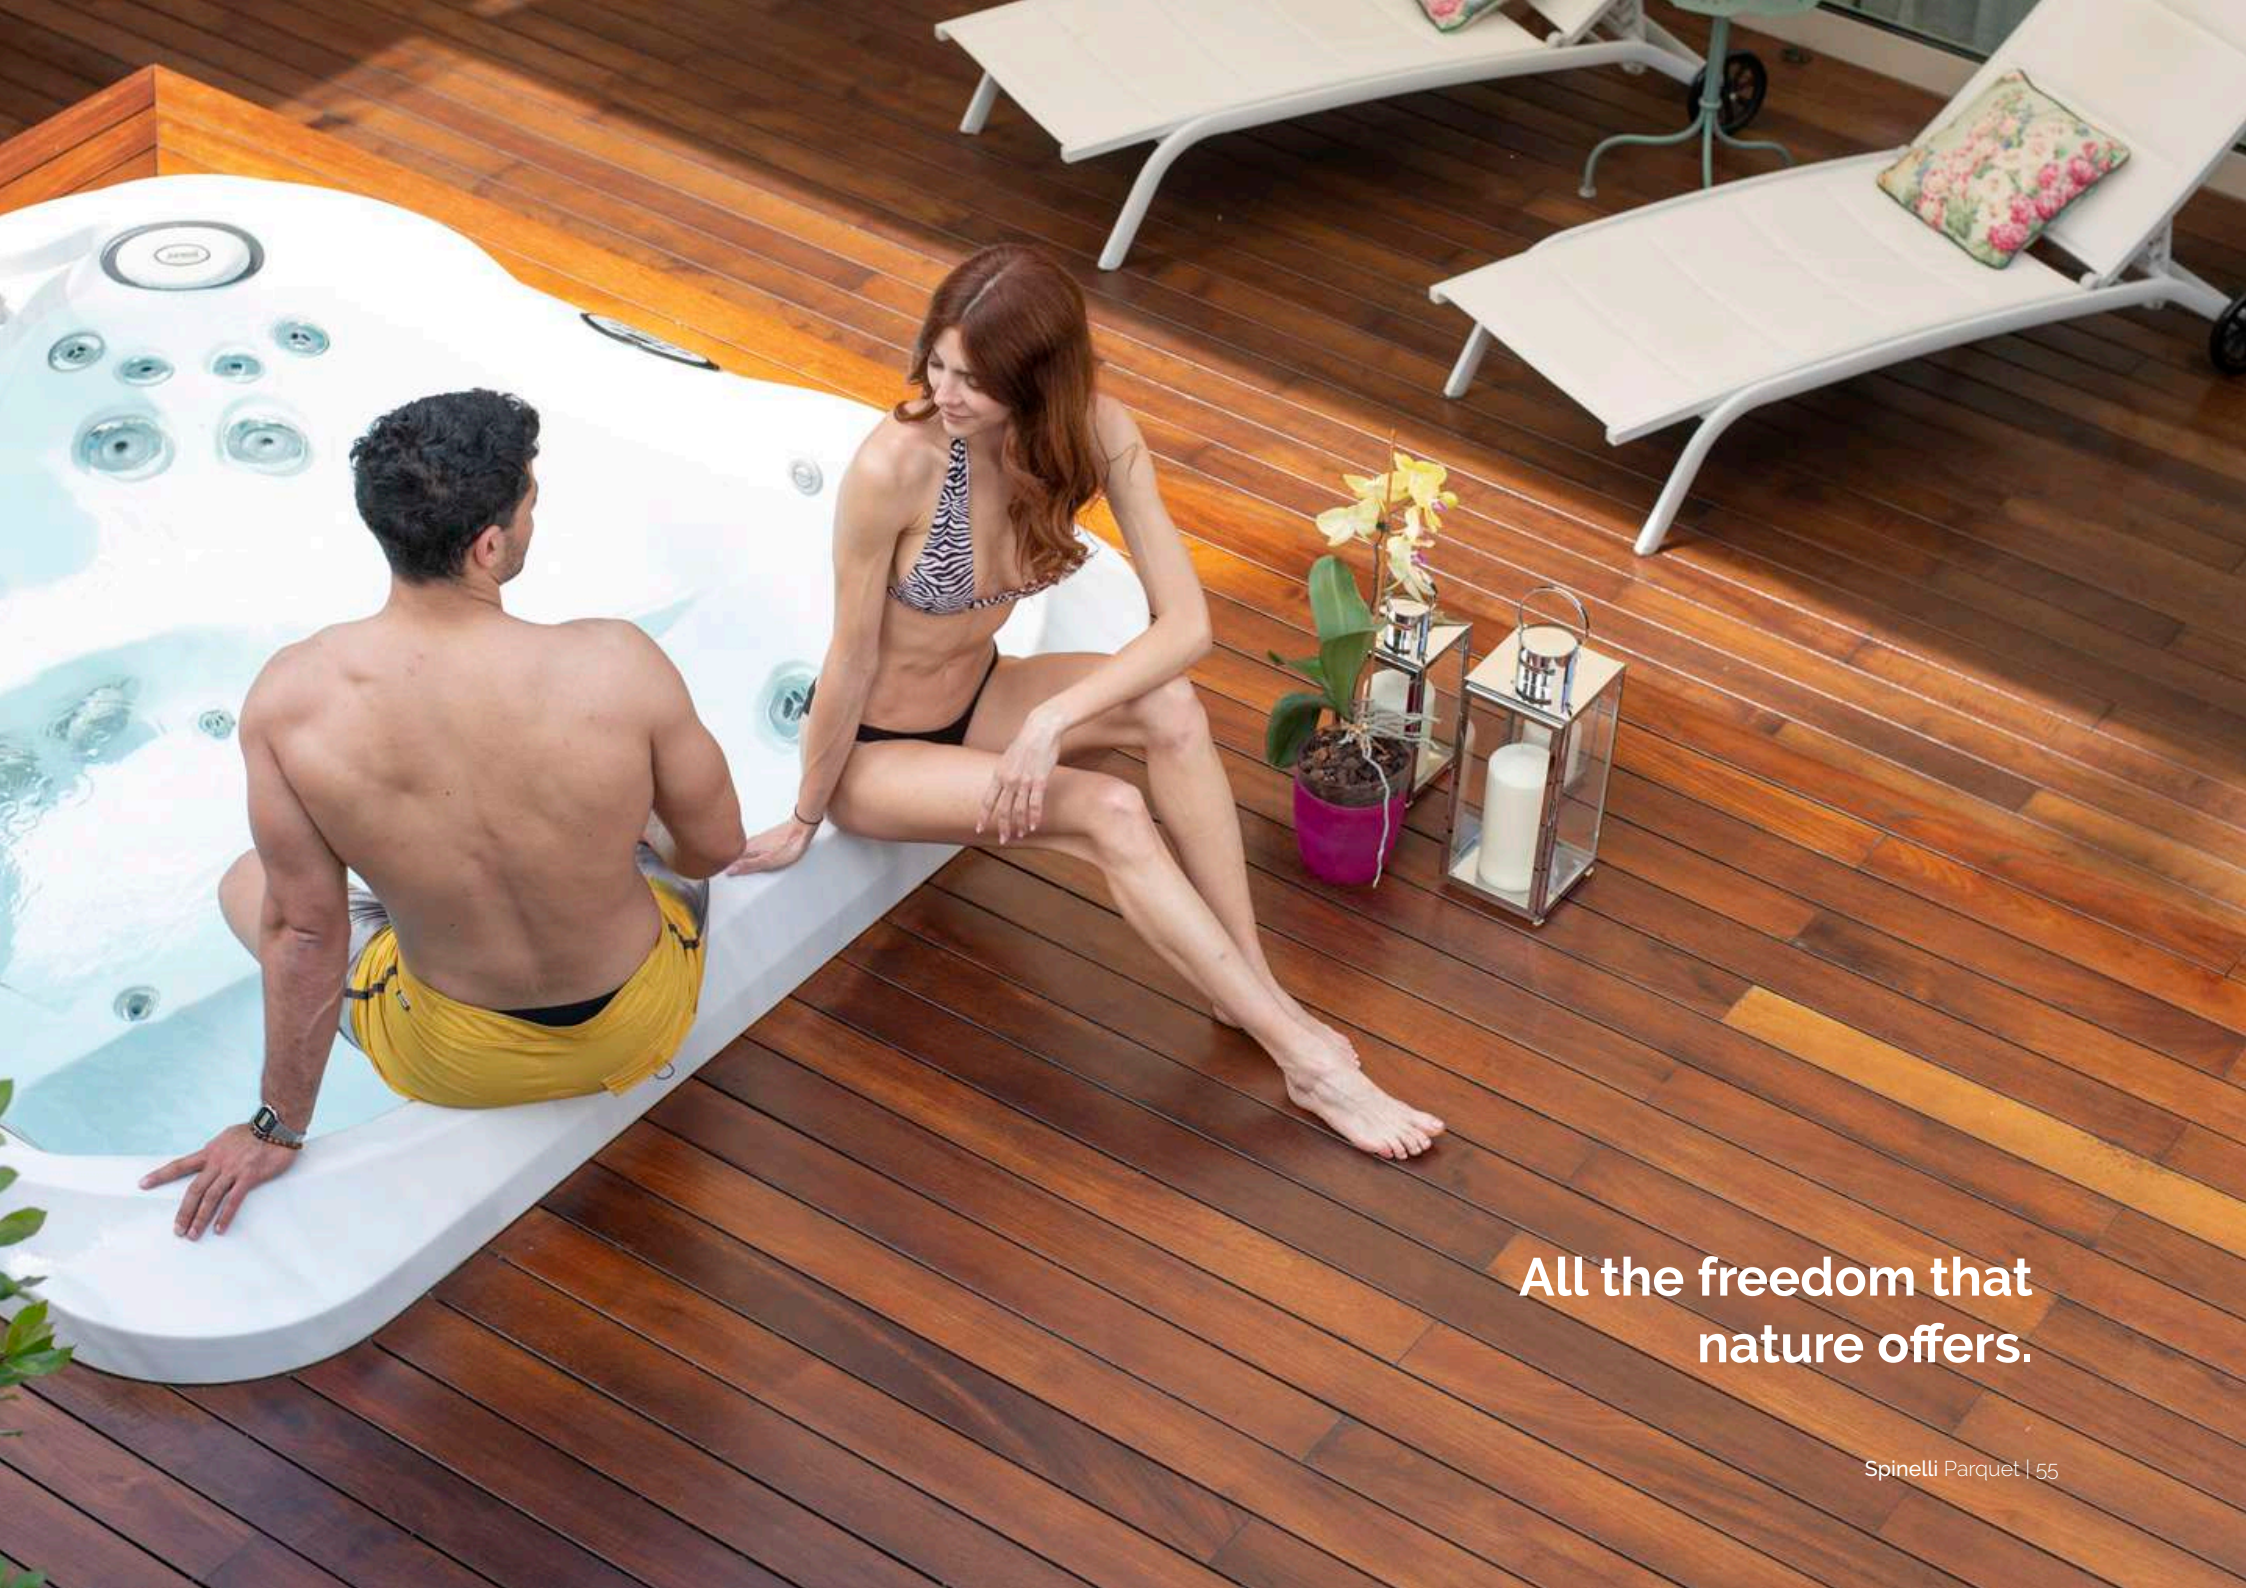

Reconstituted **bamboo** is a composite wood made from bamboo fibers and eco-friendly resins.

Indonesian Teak is a durable and premium wood, ideal for any outdoor environment.

South American Teak shares the same characteristics as Indonesian Teak but has less uniform fibers.

Finally, the **South American Teak Module** is a special product with prefabricated modules and integrated substructure, allowing for the rapid and efficient creation of outdoor flooring without the need for specific tools.

All woods in the Eso line are carefully selected to ensure maximum quality and long-term durability, *provided proper maintenance is carried out*. Also well-suited for outdoor cladding.

All the freedom that
nature offers.

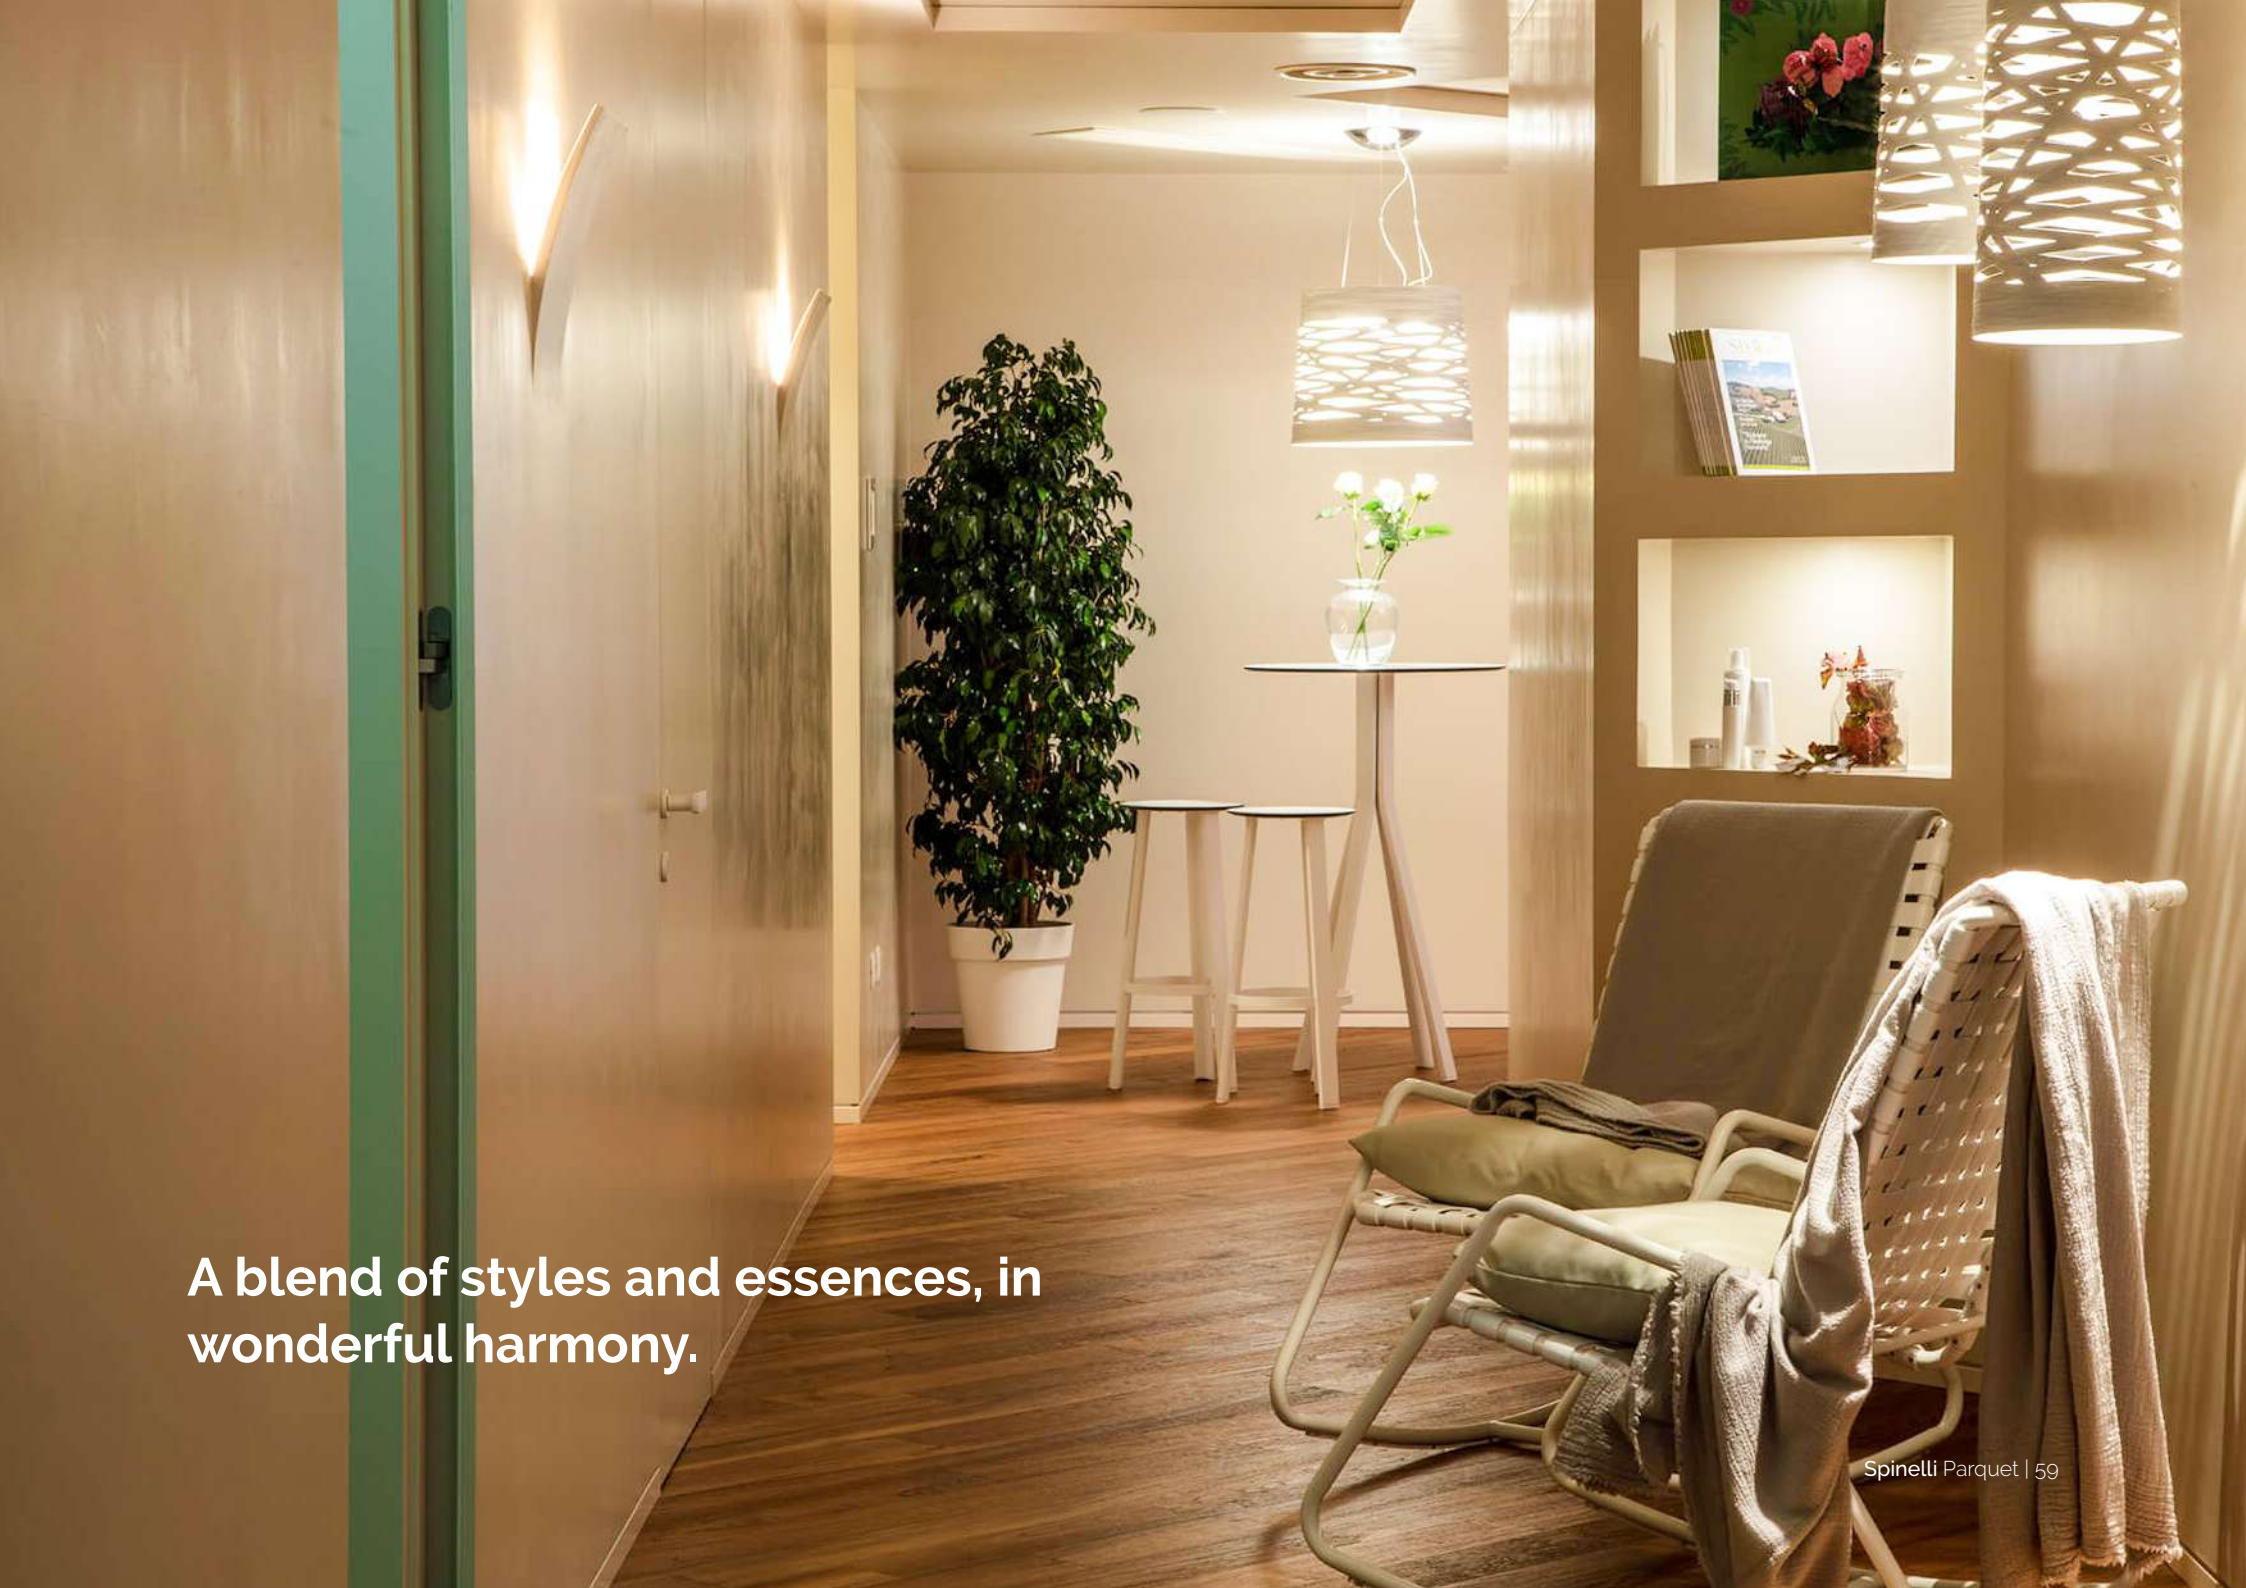

ARMONIA COLLECTION

The ARMONIA line offers a wide selection of wood options: **Teak, Wenge, and National Walnut.**

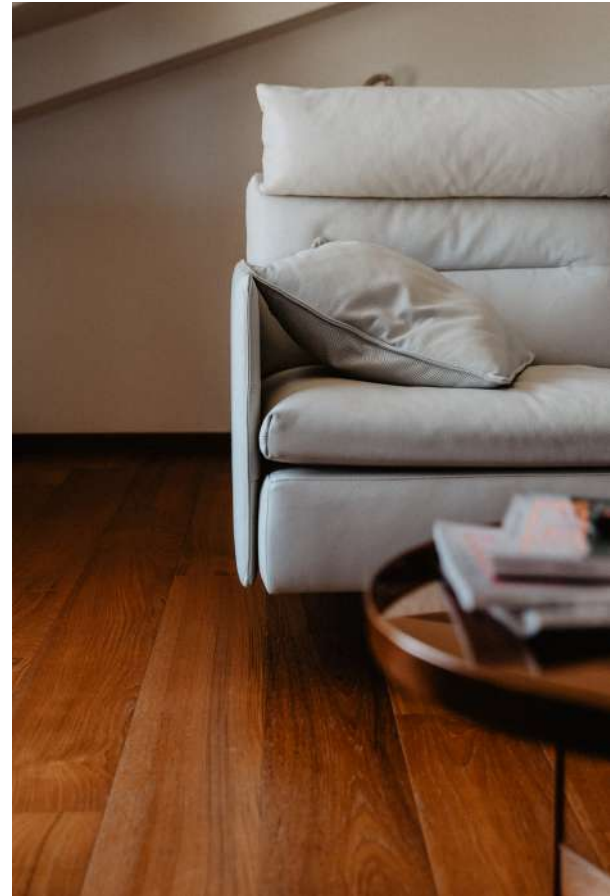

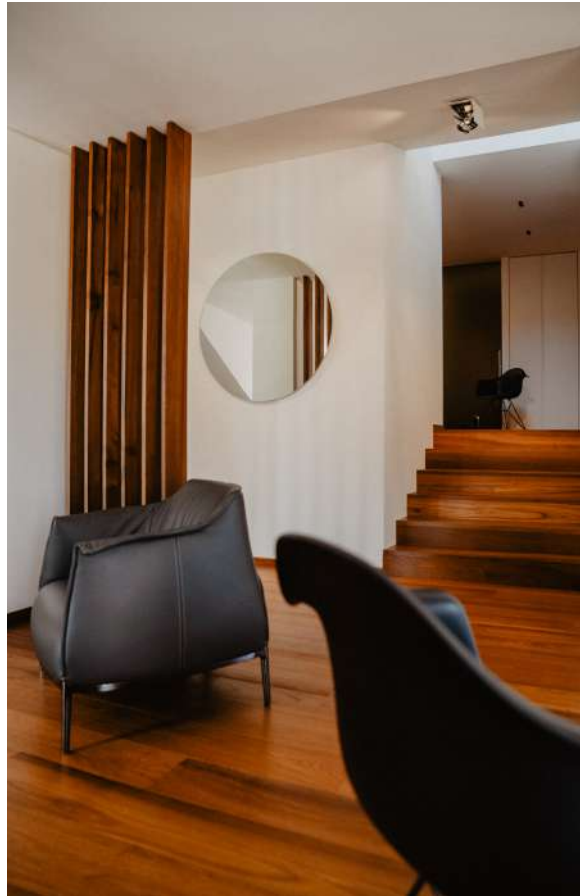

Primarily designed for those who appreciate the beauty of the **finest wood varieties**, this collection takes a different approach from modern beauty standards by allowing the choice of flooring colour to be based on the distinct hue of the selected wood species. In fact, for this collection, only **transparent finishes** are applied, which serve to preserve the selected wood essence's colour almost unchanged, accentuating its true essence.

For the same reason, only **superficial brushing processes are used, bolstering durability without significantly altering the texture.**

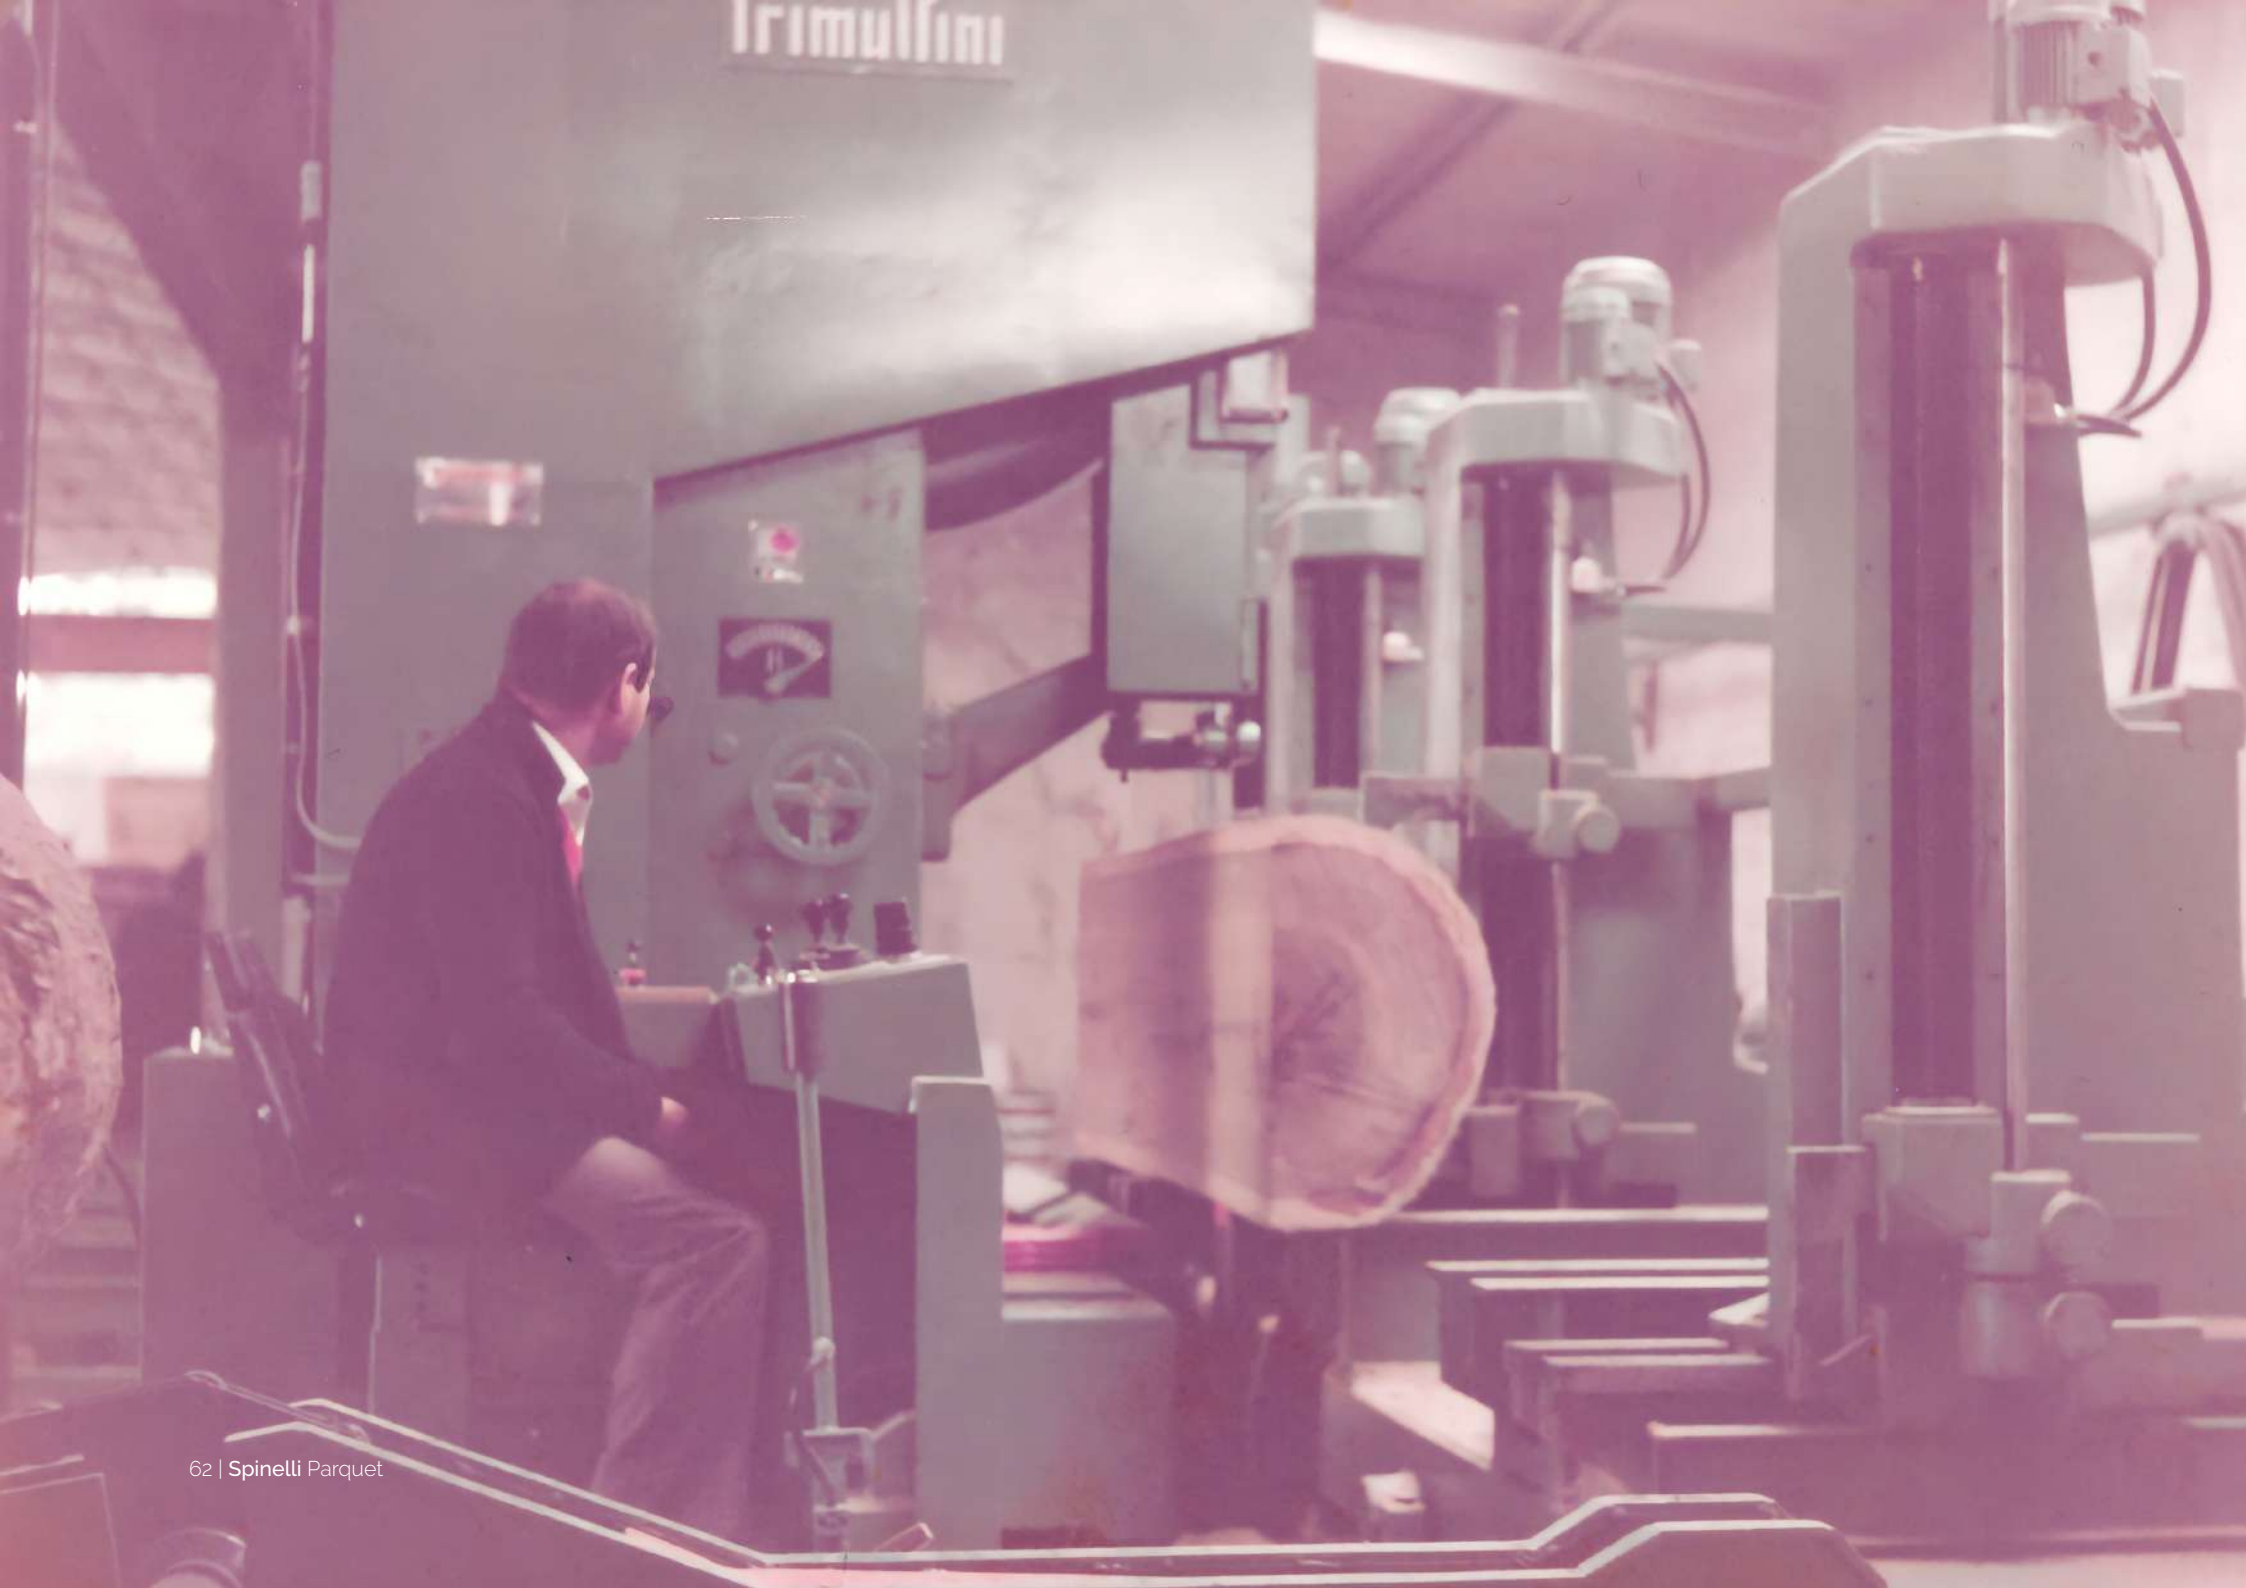

Upon request, also available in Herringbone 90°, 60°, and 45°.

A blend of styles and essences, in wonderful harmony.

Trimullini

COLOUR OPTIONS

A broad spectrum of colours designed to transform your spaces: 7 warm tones for a cozy atmosphere, 7 cool tones for a refreshing environment, and one neutral tone to preserve the wood's natural appearance.

COLOUR SYSTEM

Spinelli Parquet's colour range includes **7 warm tones, 7 cool tones, and one neutral tone.**

The **warm colour** range consists of shades of brown, beige, and red, creating a warm and cozy atmosphere in your spaces. These tones are perfect for creating an intimate and relaxing environment, ideal for enjoying quality time with family or friends.

The **cool colour** range includes shades of gray and black, ideal for establishing a refreshing and serene atmosphere. These tones are particularly suited for work spaces and relaxation areas, where you want to evoke a sense of serenity and calm.

In addition, there is a neutral tone, perfect for creating a minimalist and elegant atmosphere. This tone fits perfectly with any type of decor and style, adding a touch of subtlety and class.

QUALITY AT THE HEART OF EVERYTHING.

Every step of the wood crafting process is approached with meticulous care to ensure extraordinary results. From raw materials to the finished product, every phase is carried out with mastery and dedication.

Our skilled artisans invest time and energy in transforming rough wood into authentic works of art. Combining traditional and modern techniques, we work with precision, creating floors that reflect craftsmanship excellence.

Our passion for perfection is evident in the timeless beauty of our wood floors. Every floor that leaves our hands is a unique work of art, created with care and attention to detail.

OUR SUSTAINABILITY PHILOSOPHY

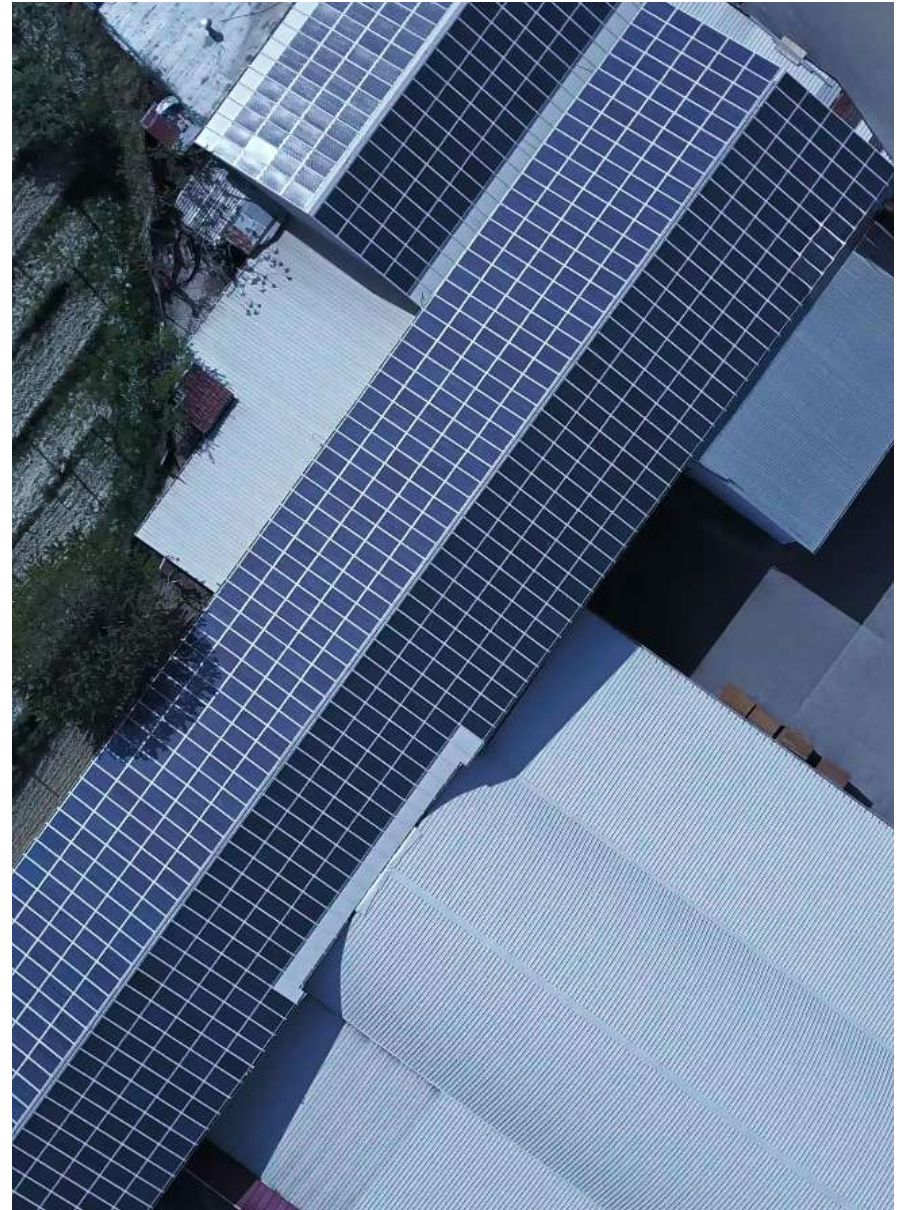

Spinelli's vision of sustainability is grounded in two key dimensions:

1. Technical and Product Sustainability:

Over our **60 years in business**, we have developed a **strong commitment to sustainability**, which is reflected in various aspects of our infrastructure. **In 2012, we installed a 2 MW photovoltaic system**, contributing to the reduction of fossil fuel usage. Waste generated during the production cycle is used to power the heating system of the facility and the drying ovens for raw materials, creating a virtuous cycle.

The adoption of cutting-edge machinery has improved our production efficiency and the use of electric forklifts has played a key role in reducing CO2 emissions.

In 2021, we committed to being FSC guardians, ensuring that our products come from **responsibly managed forests**. All our **products are free of formaldehyde and adhere to strict environmental safety standards**. We use **EC1 certified adhesives and water-based or UV resin coatings** to minimize environmental impact while ensuring high performance.

2. Sustainability in Interpersonal Relationships:

We place great emphasis on preserving relationships within our company, both with our employees and our customers.

In 2023, we successfully obtained ISO 9001 certification to ensure high-quality standards in our work system.

Since 2016, we have been actively involved in the Treedom initiative, an association that promotes tree planting in Africa, contributing to the support of local communities and reforestation of degraded areas.

Our work environment is characterized by a supportive atmosphere in which **we pay special attention to technical training, safety, and environmental protection.** We offer targeted courses for our staff to pursue these goals.

We firmly believe that this approach can guide us toward a better future. *Our dedication to the earth and wood, the raw material that have always defined our history, has been the driving force behind these decisions.* For this reason, we strongly encourage all our partners, customers, and suppliers embrace this policy.

A MISSION: THE FORESTS.

Forests serve as the lungs of our planet, absorbing carbon dioxide and producing vital oxygen, essential for the survival of all living beings. Sadly, forests are disappearing at an alarming rate due to deforestation. We firmly believe that taking action to reverse this destructive trend is crucial for ensuring a sustainable future for generations to come.

Our partnership with **Treedom** allows us to work collaboratively in **reforesting various regions worldwide**, helping to mitigate the environmental impact of our activity. Each tree we plant not only absorbs CO2 but also provides a habitat for numerous animal species, promoting local biodiversity.

Choosing our parquet means more than just selecting a beautiful and functional flooring option. It means actively contributing to the protection of the planet and doing your part to preserve natural resources for future generations. A simple decision such as purchasing our flooring can have a significant impact on the environment and the lives of people.
